

# Field Service Electrician

- Multiple positions open
- QLD location

This role will see you based in Brisbane, but working in locations remote from base in the field, primarily in QLD and nationally, for extended periods of time and is travel intensive.

As a Field Services Electrician (Day Shift), you will be responsible for performing:

- Technical services for assembly, test, repair, monitoring and maintenance of power and distribution transformers.
- Works locally, nationally and internationally.
- Works in a safe, efficient and cost-effective manner according to internal procedures and customer requirements.

The successful candidate will have:

- A QLD A Class electrical license
- Knowledge and experience relating to power and/or distribution transformers would be an advantage.
- 3 to 5 years of HV industry experience
- Excellent team skills and be a willing team contributor
- A strong work ethic with the ability to work autonomously and the stamina to see projects through to completion.

The Field Services Department has a comprehensive skills and competency programme for career and skills progression for employees.

If you wish to be considered for the role, please forward your CV to Cindy Prasad [cindy.prasad@wtc.com.au](mailto:cindy.prasad@wtc.com.au)
